## SKILLS & INTERESTS

---

- **Skills:** Experience with coding in C++, Java, and COBOL; Git and GitHub; Data structures; Object-Oriented Programming; Debugging & Testing; Linux Commands
- **Interests:** skiing, biking, computers, rollerblading, choir

## WORK EXPERIENCE

---

### Reynolds & Reynolds

Software Development Intern | Houston, TX

Summer 2025

- Developed and delivered 7 fully reviewed accounting system screens in COBOL, deployed to the testing environment and cleared for production rollout.
- Implemented CRUD operations with concurrency logic to manage 3–5 records per client, ensuring reliable and accurate data handling.
- Modernized legacy interfaces by streamlining data entry and improving usability for internal financial systems.
- Quickly learned COBOL and adapted to proprietary company standards, reducing code review revisions and increasing efficiency over the internship.

Manufacturing Assistant | College Station, TX

Sept. 2024 – Present

- Conduct quality tests on digital screens to ensure they meet standards
- Assemble products through each stage of the manufacturing process
- Inspect metal frames for warping or damage before assembly
- Clean glass and screens to remove dust, smudges, and debris, meeting quality standards

### Worldwide Flight Services

Oct. 2022 – June 2024

Ramp Agent

Humble, TX

- Maintain organized data for where packages are incoming from and their respective destinations
- Navigate airplanes into their designated parking slot

### Cracker Barrel

Oct. 2020 – July 2022

To-Go Server

Kingwood, TX

- Navigate the POS system efficiently to input customer requests
- Speak with customers directly over the phone and make sure their requests are accommodated

### McDonald's

June 2020 – Aug. 2020

Crew Member

Kingwood, TX

- Input customer orders into the POS system and prepare them on time
